**PREFILTRES A AIR - AIR PRECLEANERS**

# VORTEX

VORTEX est un préfiltre à air à expulsion continue, qui isole et enlève la plus grande partie des particules en suspension : poussières, pluie, insectes, neige, sable, étincelles, cendres.

VORTEX augmente la durée de vie du filtre à air, réduit les coûts de carburant et allonge la vie du moteur.

*VORTEX is an air precleaner with continuous expulsion, that separates and removes most airborne particles : dust, rain, insects, snow, sand, sparks, cinders.*

*VORTEX lengthens the filter life, reduces the fuel costs and extends engine life.*

**Caractéristiques**

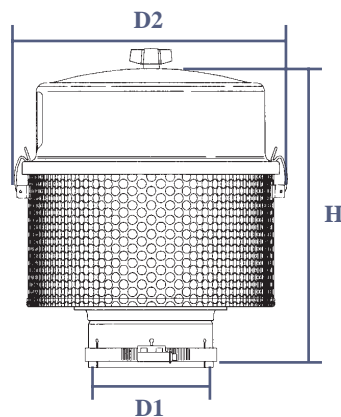

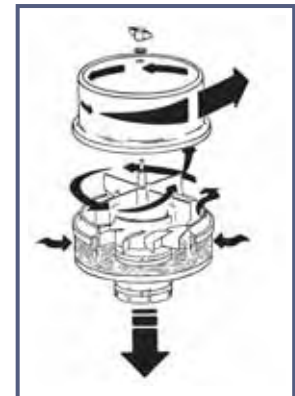

- Enlève plus de 87,5% des particules
- Faible restriction au démarrage
- Plus silencieux que des préfiltres classiques
- Facile à installer
- Peut-être monté sur tous les filtres à air
- Possibilité de diriger l'expulsion
- Efficace dans toutes les positions
- Capable de travailler dans les conditions les plus sévères
- Taille compacte

**Characteristics**

- Removes more than 87,5% of SAE COARSE dirt
- Low initial restriction
- Better antinoise effect than classical precleaners
- Easy to install
- Can be mounted on any air cleaner
- Possibility to direct the dust expulsion
- Operates in any position
- Ability to work in the harshest conditions
- Compact dimension

Vortex est un séparateur centrifuge à effet turbo. L'air aspiré entre dans le filtre et provoque la rotation du rotor via les ailettes. La force centrifuge créée par le mouvement rotatif du rotor sépare l'air des particules en suspension qui sont éjectées vers l'extérieur par l'orifice d'expulsion.

*Vortex is a centrifugal separator with turbo effect. Aspirated air enters into the Vortex through the airwings that direct it to turn the rotor. The centrifugal force caused by the spinning motion of the rotor, separates the contaminants from the air, throwing them to the inner perimeter of the cover, and expelling them through the discharge port.*

**PREFILTRES A AIR - AIR PRECLEANERS**

Les préfiltres assurent une protection supplémentaire des moteurs contre les poussières. Ils prolongent le vie du moteur de 35%.

*Precleaners protect engines against dust.  
 They increase the life of an engine by 35%.*
